

R&D SHOP

INTERNSHIP OVERVIEW

As an ag shop intern at Precision Planting, you will support the daily operations of the shop by assisting with equipment preparation, maintenance and organization. This hands-on role is ideal for high school graduates and students pursuing careers in agricultural mechanics, precision ag or related fields who are eager to gain real-world experience in a fast-paced, innovative environment.

Responsibilities:

- Assist with the assembly, maintenance and repair of agricultural equipment.
- Support the setup and teardown of field test equipment and machinery.
- Maintain a clean and organized shop environment, including tools.
- Help with loading/unloading equipment and materials for field trials or customer demos.
- Perform basic diagnostics and troubleshooting under supervision.
- Follow all safety protocols and contribute to a safe working environment.

Required Skills/Experience:

- Must be 18 with high school diploma/GED.
- Basic mechanical aptitude and familiarity with hand and power tools.
- Willingness to learn and take direction.
- Ability to lift 50 lbs and work in various weather conditions.
- Strong work ethic and attention to detail.

Desired Skills/Experience:

- Enrolled in a technical school or college program related to Ag Mechanics, Precision Agriculture or a similar field.
- Experience with agricultural equipment (e.g. planters, tractors).
- Familiarity with Precision Planting products or similar ag tech systems.
- Welding or fabrication experience is a plus.
